

Chevron Technology Ventures

A Message From Barbara Burger

To Bixby Electric Inc.,

On behalf of Chevron Technology Ventures, I wish to extend our genuine appreciation for your work on the Qesta Upgrade Project. It is important to Chevron that the facility operates effectively, which would not be possible without these upgrades. The incident-free service that you provided was completed on schedule and within the approved budget. Thank you again for your valuable service to Chevron on this project.

Best Regards,

Barbara J. Burger
President, Chevron Technology Ventures
